ABOUT THE WORKSHOP

Mushroom cultivation presents a lucrative entrepreneurship opportunity due to rising global demand for healthy and organic food. With low startup costs, minimal space requirements and various mushroom varieties to target diverse markets, entrepreneurs can tap into the sustainable agriculture trend. Additionally, mushrooms application in pharmaceuticals, cosmetics, and bioremediation further enhance their appeal, making mushroom cultivation a promising venture for aspiring entrepreneurs.

MISSION AND VISION

Midnapore City College is in the Paschim Medinipur district of West Bengal, which is a rural and undereducated area. Many students from economically and socially marginalized backgrounds attend this College. The biological sciences department of Botany and Agriculture has arranged a one-day workshop on mushroom growing with the aim of enhancing the socioeconomic situation and encouraging student employment. Through this program, participants and students will have the chance to enhance their industry interaction skills and broaden their global chances.
